

## **IDAHO**

In the most recent ASCE *Report Card for Idaho's Infrastructure*, the <u>state earned</u> a cumulative grade of a "C-."The Infrastructure Investment and Jobs Act (IIJA) provides significant new funding to improve the condition of Idaho's infrastructure systems and better ensure our infrastructure is prepared for the future.

**AVIATION:** Idaho is home to 7 major airports that will benefit from the \$25 billion in increased airport infrastructure funding provided over 5 years from the BIB. <sup>22</sup>

**BRIDGES:** Over 6% of Idaho's bridges are in poor condition and considered structurally deficient. The BIB provides \$40 billion in new funding for bridge repair, replacement, and rehabilitation – the single largest dedicated bridge investment in over 50 years.<sup>23</sup>

**ROADS:** In 2018, there was an projected \$3.6 billion funding gap for roads by the year 2048. The IIJA would provide the state with \$2.2 billion in additional funding over the next 5 years to close that gap.<sup>24</sup>

**PORTS AND INLAND WATERWAYS:** Idaho is home to 110 miles of inland waterways that will benefit from \$17 billion in new infrastructure funding over 5 years from the BIB.<sup>25</sup>

**WASTEWATER:** Since 2016, Idaho has received, on average, \$7 million annually to finance wastewater projects through the Clean Water State Revolving Fund Program. With IIJA funding, the state is set to receive roughly double that for the next 5 years.<sup>26</sup>

**DRINKING WATER:** Idaho reports a \$1.3 billion drinking water investment gap. The BIB provides \$55 billion to upgrade the nation's water infrastructure.<sup>27</sup>

**DAMS:** Idaho has 101 high hazard potential dams. The BIB provides \$585 million for high hazard dam rehabilitation and \$148 million for dam safety programs.<sup>28</sup>
