

INDIANA

The Infrastructure Investment and Jobs Act (IIJA) provides significant new funding to improve the condition of Indiana's infrastructure systems and better ensure our infrastructure is prepared for the future.

AVIATION: Indiana is home to 11 major airports that will benefit from the \$25 billion in increased airport infrastructure funding provided over 5 years from the BIB.³⁶

BRIDGES: 6% of Indiana's bridges are in poor condition and considered structurally deficient. The BIB provides \$40 billion in new funding for bridge repair, replacement, and rehabilitation – the single largest dedicated bridge investment in over 50 years.³⁷

ROADS: From 2019-2022, Indiana DOT will spend \$2 billion on roadway improvements alone. The IIJA would provide \$7 billion in additional funding over the next 5 years to support improvements and other state roadway projects.³⁸

PORTS AND INLAND WATERWAYS: Indiana is home to 5 major water ports and 350 miles of inland waterways that will benefit from \$17 billion in new infrastructure funding over 5 years from the BIB.³⁹

WASTEWATER: Since 2016, Indiana has received, on average, \$35 million annually to finance wastewater projects through the Clean Water State Revolving Fund Program. With IIJA funding, the state is set to receive roughly double that for the next 5 years.⁴⁰

DRINKING WATER: Indiana reports a \$7.5 billion drinking water investment gap. The BIB provides \$55 billion to upgrade the nation's water infrastructure.⁴¹

DAMS: Indiana has 266 high hazard potential dams. The BIB provides \$585 million for high hazard dam rehabilitation and \$148 million for dam safety programs.⁴²
