

KANSAS

In the most recent ASCE Report Card for Kansas' Infrastructure, the state earned a cumulative grade of a "C." The Infrastructure Investment and Jobs Act (IIJA) provides significant new funding to improve the condition of Kansas' infrastructure systems and better ensure our infrastructure is prepared for the future.

AVIATION: Kansas is home to 9 major airports that will benefit from the \$25 billion in increased airport infrastructure funding provided over 5 years from the BIB.⁴³

BRIDGES: Over 5.1% of Kansas's bridges are in poor condition and considered structurally deficient. The BIB provides \$40 billion in new funding for bridge repair, replacement, and rehabilitation – the single largest dedicated bridge investment in over 50 years.⁴⁴

ROADS: Kansas distributed \$5.8 billion in state and local highway funding through the T-WORKS program from 2011 to 2020. The IIJA would build upon this progress and support future projects with nearly \$2.9 billion in additional funding over the next 5 years.^{45,46}

PORTS AND INLAND WATERWAYS: Kansas is home to 120 miles of inland waterways that will benefit from \$17 billion in new infrastructure funding over 5 years from the BIB.⁴⁷

WASTEWATER: Since 2016, Kansas has received, on average, \$13 million annually to finance wastewater projects through the Clean Water State Revolving Fund Program. With IIJA funding, the state is set to receive roughly double that for the next 5 years.⁴⁸

DRINKING WATER: Kansas reports a \$5.3 billion drinking water investment gap. The BIB provides \$55 billion to upgrade the nation's water infrastructure.⁴⁹

DAMS: Kansas has 289 high hazard potential dams. The BIB provides \$585 million for high hazard dam rehabilitation and \$148 million for dam safety programs.⁵⁰
