

NEW JERSEY

The Infrastructure Investment and Jobs Act (IIJA) provides significant new funding to improve the condition of New Jersey's infrastructure systems and better ensure our infrastructure is prepared for the future.

AVIATION: New Jersey is home to 4 major airports that will benefit from the \$25 billion in increased airport infrastructure funding provided over 5 years from the IIJA.⁷⁰

BRIDGES: Nearly 8% of New Jersey's bridges are in poor condition and considered structurally deficient. The IIJA provides \$40 billion in new funding for bridge repair, replacement, and rehabilitation – the single largest dedicated bridge investment in over 50 years.⁷¹

ROADS: New Jersey DOT's Transportation Asset Management Plan shows that there is an annual state highway system infrastructure funding gap of more than \$256 million.⁷² The IIJA would provide over \$8 billion in additional funding over the next 5 years.

PORTS AND INLAND WATERWAYS: New Jersey is home to 3 major ports and 360 miles of inland waterways that will benefit from \$17 billion in new infrastructure funding over 5 years from the IIJA.⁷³

WASTEWATER: Since 2016, New Jersey has received, on average, nearly \$94 million annually to finance wastewater projects through the Clean Water State Revolving Fund Program.⁷⁴ With IIJA funding, the state is set to receive roughly double that for the next 5 years.

DRINKING WATER: New Jersey reports a \$8.6 billion drinking water investment gap.⁷⁵ The IIJA provides \$55 billion to upgrade the nation's water infrastructure.

DAMS: New Jersey has 229 high hazard potential dams.⁷⁶ The IIJA provides \$585 million for high hazard dam rehabilitation and \$148 million for dam safety programs.
