

NORTH DAKOTA

In the most recent *ASCE Report Card for North Dakota's Infrastructure*, [the state earned a cumulative grade of a "C."](#) The Infrastructure Investment and Jobs Act (IIJA) provides significant new funding to improve the condition of North Dakota's infrastructure systems and better ensure our infrastructure is prepared for the future.

AVIATION: North Dakota is home to 8 major airports that will benefit from the \$25 billion in increased airport infrastructure funding provided over 5 years from the BIB.¹¹⁸

BRIDGES: Almost 11% of North Dakota's bridges are in poor condition and considered structurally deficient. The BIB provides \$40 billion in new funding for bridge repair, replacement, and rehabilitation – the single largest dedicated bridge investment in over 50 years.¹¹⁹

ROADS: While many of North Dakota's roads are in good or very good condition, up to 872 miles of roadway are estimated to be at-risk of slipping into poor condition by the end of the year. The IIJA would provide \$1.9 billion in additional funding to North Dakota over the next 5 year to roadway improvement and other highway projects.¹²⁰

WASTEWATER: Since 2016, North Dakota has received, on average, nearly \$6 million annually to finance wastewater projects through the Clean Water State Revolving Fund Program. With IIJA funding, the state is set to receive roughly double that for the next 5 years.¹²¹

DRINKING WATER: North Dakota reports a \$715 million drinking water investment gap. The BIB provides \$55 billion to upgrade the nation's water infrastructure.¹²²

DAMS: North Dakota has 47 high hazard potential dams. The BIB provides \$585 million for high hazard dam rehabilitation and \$148 million for dam safety programs.¹²³
