

## UTAH

In the most recent ASCE Report Card for Utah's Infrastructure, the state earned a cumulative grade of a "C+." The Infrastructure Investment and Jobs Act (IIJA) provides significant new funding to improve the condition of Utah's infrastructure systems and better ensure our infrastructure is prepared for the future.

**AVIATION:** Utah is home to 9 major airports that will benefit from the \$25 billion in increased airport infrastructure funding provided over 5 years from the IIJA.<sup>116</sup>

**BRIDGES:** Approximately 2% of Utah's bridges are in poor condition and considered structurally deficient. The IIJA provides \$40 billion in new funding for bridge repair, replacement, and rehabilitation – the single largest dedicated bridge investment in over 50 years.<sup>117</sup>

**ROADS:** Utah has invested in its freight network to remain a modern-day crossroads for trade across the country. Specifically, the state invested \$1.2 billion in major roadway capacity from 2017 to 2020. The IIJA provides an additional \$2.66 billion over five years for roadway capacity and condition improvements in the state.

**WASTEWATER:** Since 2016, Utah has received, on average, nearly \$4 million annually to finance wastewater projects through the Clean Water State Revolving Fund Program.<sup>118</sup> With IIJA funding, the state is set to receive roughly double that for the next 5 years.

**DRINKING WATER:** Utah reports a \$4.4 billion drinking water investment gap.<sup>119</sup> The IIJA provides \$55 billion to upgrade the nation's water infrastructure.

**DAMS:** Utah has 266 high hazard potential dams.<sup>120</sup> The IIJA provides \$585 million for high hazard dam rehabilitation and \$148 million for dam safety programs.
