

WYOMING

The Infrastructure Investment and Jobs Act (IIJA) provides significant new funding to improve the condition of Wyoming's infrastructure systems and better ensure our infrastructure is prepared for the future.

AVIATION: Wyoming is home to 9 major airports that will benefit from the \$25 billion in increased airport infrastructure funding provided over 5 years from the BIB.¹⁴⁵

BRIDGES: Almost 7% of Wyoming's bridges are in poor condition and considered structurally deficient. The BIB provides \$40 billion in new funding for bridge repair, replacement, and rehabilitation – the single largest dedicated bridge investment in over 50 years.¹⁴⁶

ROADS: Due to large funding shortfalls in 2020, Wyoming DOT delayed 11 construction projects, reallocating \$436 million over a 6-year period toward maintaining its existing roadways. The IIJA would provide \$2 billion in additional funding over the next 5 years to help reduce the funding gap, revive delayed projects, and support future construction in Wyoming.¹⁴⁷

WASTEWATER: Since 2016, Wyoming has received, on average, nearly \$7 million annually to finance wastewater projects through the Clean Water State Revolving Fund Program. With IIJA funding, the state is set to receive roughly double that for the next 5 years.¹⁴⁸

DRINKING WATER: Wyoming reports a \$458 million drinking water investment gap. The BIB provides \$55 billion to upgrade the nation's water infrastructure.¹⁴⁹

DAMS: Wyoming has 99 high hazard potential dams. The BIB provides \$585 million for high hazard dam rehabilitation and \$148 million for dam safety programs.¹⁵⁰
